

<b>Workshop Title</b>	<b>Identifying and Managing Process Improvements</b>	
<b>Why invest in this workshop?</b>	All business operations are delivered through some form of process so learning to improve them can transform the productivity of every aspect of your organisation	
<b>Who is it for?</b>	Anyone with responsibility for some form of business operation (typically managers)	
<b>What output(s) will attendees learn to produce</b>	Attendees will create a process map for a business process that they are all familiar with, e.g. performance appraisals. They will then produce a prioritised list of risks/improvement opportunities based on a critical analysis of that process.	
	 <pre> graph LR     Start([Start]) --&gt; Activity1[Activity]     Activity1 --&gt; Activity2[Activity]     Activity2 --&gt; Decision1{?}     Decision1 --&gt; Activity3[Activity]     Activity3 --&gt; Activity4[Activity]     Activity4 --&gt; Activity5[Activity]     Activity5 --&gt; Decision2{?}     Decision2 --&gt; SystemOp[System Operation]     SystemOp --&gt; Activity6[Activity]     Activity6 --&gt; Activity7[Activity]     Activity7 --&gt; ImprovementOpportunity[Improvement Opportunity]     ImprovementOpportunity --&gt; Risk[Risk]     Risk --&gt; Activity8[Activity]     Activity8 --&gt; Activity9[Activity]     Activity9 --&gt; End([End])     </pre> <p><b>Key Process Measures</b></p> <ul style="list-style-type: none"> <li>1. Service 1 call handling Time </li> <li>2. Customer sat for service 1 </li> </ul>	
<b>How will they produce it?</b>	<p><b>MODULE 1: Defining the AS-IS Process</b></p> <p>1a (30 mins): Understand the elements of a process: roles, activities, decisions etc.      1b (30 mins): Define the start and end of the process as well as the roles involved      1c (1 HR): Draft the AS-IS process and add supporting systems/documents/timings      1d (30 mins): Define key process performance indicators for time and quality</p> <p><b>MODULE 2: Using lean/six sigma approaches to make process improvements</b></p> <p>2a (1 HR): Flag opportunities to reduce cycle time/wastage or improve quality      2b (30 mins): Flag potential risks, their impact/likelihood &amp; mitigating actions      2d (30 mins): Prioritise opportunities/mitigating actions using cost-benefit analysis</p> <p><b>MODULE 3: Documenting and Implementing the TO-BE Process</b></p> <p>3a (1 HR): Use a PowerPoint template to document the TO-BE process map      3b (30 mins): Identify a timeline of actions to implement the TO-BE process</p>

## Training Workshops

Business Skills

Bespoke

<b>Format</b>	The AS-IS process map will be created by the group as a brown-paper exercise. Individuals will then identify opportunities/risks on post-its, which will be rationalised/ prioritised by the group. The TO-BE process map and implementation actions will be created by each individual on laptops in a PowerPoint template.
<b>Duration</b>	1 Day (for full course) or can be broken down into modules/sub-modules as above
<b>How Success Measured</b>	Option to have feedback collected from attendees 6/12 months following the course to assess if processes (and their associated measures) have been improved
<b>Course Variants</b>	Other courses are also available that cover continuous improvement (Lean, Six Sigma) and quality methodologies (ISO, EFQM, TQM) as well as more advance business architecture modelling principles
