

ASSESSMENT & PLANNING PRACTITIONERS TRAINING OVERVIEW

Summary

A thorough working through of the AssetPlus Framework looking at good vs. not so good practice examples and group exercises. More specific training can also cover areas such as Analysis, Desistance, Risk Identification, Risk Management / Contingency Planning, Reviews, Remand / Custody / Resettlement assessment & Planning Practice.

Outline

OBJECTIVES :

At the end of the course participants will be able to:

- Understand how to create logical flow of information through the framework
- Understand how to structure answers to provide high quality evidence with minimal duplication / wasted effort
- Understand how and where underpinning theories are applied in the framework – Desistance, Good Lives Model, Change Theory etc.
- Ensure assessment identify and analyse all the risks, strengths and needs of the young person
- Produce tailored / young person specific plans that address their priority risks, strengths and needs
- Understand how the completion of AssetPlus should differ for other assessment stages

FORMAT:

Attendees will carry out the following for each section of AssetPlus:

1. Listen to an explanation of best practice
2. Complete exercises for key sub-sections to apply the best practice using a dummy or live case example
3. Compare good vs. poor practice examples and identify / discuss the differences to solidify understanding

DELIVERY FORMAT:

3 hour virtual training sessions delivered through Microsoft teams with use of screensharing to review examples / case information and break out rooms where attendees will work through the completion of key parts of the framework in small groups.
